SUPPLY CHAIN & PRODUCTION CONTROL SERVICES

AM General Supply Chain and Production Control services provide our customers a global solution to their supply chain needs.

Whether it's complete purchasing services with AM General suppliers or working with our customers' existing supply base, AM General has the purchasing, quality and supply chain personnel to supplement our customers' existing resources or provide complete project support.

Support systems are as important as the vehicle itself. The complex infrastructure of materials, suppliers, and logistics needs an experienced eye with a commitment to quality and reduced risk, and a low-cost mindset.

### SERVICES INCLUDE:

- Purchasing/Procurement
- Material planning (PFEP)
- Logistics planning
- Inbound and outbound transportation
- Aftermarket part supply
- Kitting and sequencing
- Dealer communications
- Order management
- BOM management
- Master scheduling
- Inventory control
- Supply chain management (health check)
- Tooling management (asset management)

Regardless of volume or the type of services your company needs, we have the capability and flexibility to support the entire value chain.

**AM GENERAL IS YOUR SUPPLY CHAIN & PRODUCTION CONTROL SOLUTION**
