

X-LT3

Lightweight, rugged, durable, versatile— FOR ALL TERRAINS

The X-LT3 answers the Army's requirement for a high-performance, affordable, light, air-deliverable tactical squad vehicle.

Off-Road Mobility

- 18 in. vertical step height
- 84° approach and 68° departure
- 19 ft. turning radius using “cutting” brakes
- 15.5 in. ground clearance
- 24 in. center of gravity at vehicle curb weight; 31 in. at gross vehicle weight
- Independent front suspension/trailing arm rear suspension with 15.5 in. and 21 in. of travel
- 173 in. length; 78 in. width; 72 in. height (with roll protected cage folded)

Transportability

- 7,400 lb. GVW
- Transportable via tie-down, lift, and sling by a variety of aircraft
- Ramp-over angles allow quick entry and exit from the aircraft
- 9-seat configuration in an open frame body
- Rapid mount and dismount for soldiers
- 4-point harnesses and roll-protected cage
