

**ROGER K. PARKER**

**Sr. Vice President, Operations**

Roger Parker is AM General's Senior Vice President for Operations and leads the company's Operations, Quality and Supply Chain Management organizations.

In this role, Parker reports to AM General President and CEO, James Cannon and works closely with the executive management team to lead operations and ensure alignment with the corporate mission, vision, and strategy. Parker manages all aspects of production, purchasing, aftermarket fulfillment parts and services, and the quality management system.

Parker joined AM General in March 2001 with the launch of AM General's Commercial Assembly Plant which operated as the largest contract manufacturing facility for commercial vehicles including production of the HUMMER H2, Mobility Ventures MV-1 specialty purpose vehicle, and the Mercedes R-Class SUV. In 2005, Parker accepted the role as Director of Quality and in 2015 Parker was appointed Vice President of Corporate Quality. Prior to joining AM General, Parker garnered extensive automotive manufacturing experience working for Nissan North America.

Parker holds an MBA from University of Notre Dame and a Bachelor of Science in Mechanical Engineering from Tennessee Technology University. Parker serves as an executive committee member for the Indiana Conexus Advanced Manufacturing Council. Parker resides in Granger, Indiana with his wife Kellie, daughters Madison and Caroline and son Grant.
